Storage fees are charged for all Units stored in an Amazon fulfillment center based on calendar month and your daily average volume (measured in cubic feet). The cubic feet of any Unit will be based on the Unit's size as properly packaged and ready for shipment to customers in accordance with the FBA Program Policies. Amazon will be entitled to make its own measurement of the cubic feet or weight of any packaged Unit or representative sample thereof and in the event of any conflict between such measurement and information provided by Seller, Amazon's measurement will govern.

Monthly Storage	
Month	Cost per cubic foot per month
January - September	\$0.45

### Calculating Cubic Feet from Inches

1. Multiply length x width x height in inches to get the volume.
  2. Divide the volume by 12 cubic inches (12" x 12" x 12" = 1,728)
- Example:** A book measuring 8" x 6" x 2" divided by 1,728 = .056 cu. ft.

# Fulfillment by Amazon Program Fee Changes

On May 19, 2011, Fulfillment by Amazon (FBA) will be making several changes to the FBA Program Fees. The following fees will be affected:

- Standard-Size Media Pick & Pack per Unit fee
- Multi-Channel Fulfillment Weight Handling fees for Oversize Units
- Special Handling fee for televisions with screens that are 42" or larger (new)

Our goal is to provide a world-class fulfillment and customer-service solution for sellers. As we have not modified our rate card in several years, it is necessary for us to adjust these fees at this time.

## Standard-Size Media Pick & Pack per Unit fee

The Standard-Size Media Pick & Pack per Unit fee for your items ordered on Amazon.com with a selling price of less than \$25 will increase from \$0.50 per Unit to \$0.60 per Unit.

The adjusted Pick & Pack per Unit fee will apply to Standard-Size books, music, video games, DVDs, and software with a selling price of less than \$25 that are sold on Amazon.com. The Pick & Pack per Unit fee for Multi-Channel Fulfillment orders placed through other sales channels will not be affected.

Standard-Size includes any packaged Unit that is 20 lbs or less with its longest side 18" or less, its shortest side 8" or less, and its median side 14" or less. A Unit exceeding any of these dimensions is Oversize.

Learn more about [Standard-Size Media order fulfillment fees](#).

## Example for On Amazon.com order for large-screen televisions

If you sell a television with a 42" LCD TV with packaged weight of 50 lbs that is ordered on Amazon.com, you will incur a \$50 Special Handling, current Weight Handling fees will remain the same.

On Amazon.com Fulfillment fees	
Service	Fee
Order Handling (per order)	\$0.00
Pick & Pack (per unit)	\$3.00
Weight Handling (per lb.)	\$0.40
Special Handling <b>New</b>	\$50.00
Total	\$53.40

## Multi-Channel Fulfillment Weight Handling fees for Oversize\* Units

Multi-Channel Fulfillment Weight Handling fees for Oversize Units will increase for Standard and Expedited (Two-Day) shipping to the amounts the table below. Multi-Channel Fulfillment Weight Handling fees for Priority (Next-Day) shipping are not affected by this rate change, nor are the Weight Handling fees for orders placed on Amazon.com.

Multi-Channel Fulfillment Weight Handling fees for Oversize* Units		
Weight	Standard	Expedited
First 15 lbs	\$0.50	\$0.60
Next 16 - 70 lbs	\$0.70	\$0.80
Next 71 - 150 lbs	\$0.90	\$1.00

Learn more about [Oversize Media and Non-Media order fulfillment fees](#).

## Special Handling fee for large-screen televisions

To ensure a high quality delivery experience, FBA has determined that some large, delicate products require special handling for delivery. As this delivery method is more costly, FBA will begin applying a Special Handling fee for large-screen televisions\* including plasma, LCD, projection, and CRT television Units ordered on Amazon.com or through another sales channel.

Multi-Channel Fulfillment Special Handling fees for large-screen television Units	
	Special Handling
On Amazon.com Fulfillment	\$50/shipment**
Multi-Channel Fulfillment	\$75/shipment**

In settlement reports, the Weight-based fee will reflect the combined Weight Handling fee and the Special Handling fee as a single line item. See the examples below.

Learn more about [Oversize Media and Non-Media order fulfillment fees](#).

## Example for Multi-Channel Fulfillment order for large-screen televisions

If you sell a television with a 42" screen weighing 50 lbs through a sales channel other than Amazon.com that is delivered via standard shipping, you will incur a \$7.00 Order Handling fee, a \$3.00 Pick & Pack fee, the new Weight Handling fee of \$0.50 per pound for the first 15 pounds (\$8.50), \$0.70 per pound for the remaining 35 pounds (\$24.50), and a \$75.00 Special Handling fee\*\* for a total fulfillment fee of \$118.00.

Multi-Channel Fulfillment Fees			
Shipping Method	Standard	Expedited	Priority
Order Handling (per unit**)	7.00	10.00	17.00
Pick & Pack (per unit)	3.00	3.00	3.00
Weight Handling (per lb. ***)	First 15 lbs.	0.50	0.60
	Next 16 - 70 lbs.	0.70	0.80

Special Handling (per shipment**) <b>New</b>		75.00	75.00

\*Large-screen televisions: TVs with screens 42" or larger are considered large-screen televisions. However, smaller TVs could qualify for the Special Handling fee based on other factors such as weight and how delicate the TV is.

\*\*Per Shipment: Each Oversize Unit is generally sent as a single shipment in its own package; therefore Amazon does not aggregate the fees for multiple Unit orders that include both Standard-Size and Oversize Units. When calculating the fulfillment fees for orders that include Oversize Units, each Oversize Unit in the order is assessed the applicable per unit Order Handling fee. TVs 42" or larger are assessed the Special Handling fee for each shipment.

\*\*Multi-Channel Fulfillment Weight Handling: Total shipment weight is calculated by adding a dunnage factor of 10 percent to the combined total of the individual Unit weight of each Unit in the shipment, then rounding up to the nearest pound.
